The following is the code which I used to resolve the issue. String line; StreamReader file = new StreamReader(@"d:\Downloads\totalcommander8.01.rar"); while ((line = file.ReadLine()) != null) { if (line.ToString().Contains("hash md5")) { file.Close(); Console.WriteLine("Done"); break; } } The above code searches for the following line in the.rar file and exits the program. hash md5 To the.rar file which we are reading. Not sure if this is the right approach, but this is working. A chiral nematic liquid crystal and its optical properties. We have carried out a comprehensive study of the nematic liquid crystal phases and their optical properties in the presence of a chiral dopant. The helical ordering of the molecules is found to be completely reversed when an achiral dopant is used instead of a chiral dopant. The microscopic reasons for this behaviour are studied in detail for a chiral nematic phase. On the other hand, we also studied the effect of the presence of a chiral dopant on the optic activity of a chiral nematic liquid crystal in the isotropic state. The twist-nematic phase of the nematic liquid crystal under investigation is found to show the phenomenon of spontaneous helicity in the presence of a chiral dopant.
