We update our site constantly with the best quality videos of Newlyweds, just for you. We have full movies of couple that comes out of the sexual life and wants to share that with you. These couple knows that they both want to be in the center of this session.[Surgical treatment of paragangliomas]. Paraganglioma is a rare neuroendocrine tumour, it is located in extra-adrenal retroperitoneum. The aim of the work is to present our experience in paraganglioma management. The study group included 23 patients with paraganglioma, from 2000 to 2014. Radiological images and intraoperative findings were evaluated retrospectively. We analysed age, sex, localization, resection type and tumour size. In the group of 23 patients with paraganglioma there were 19 females and 4 males. The mean age was 49.3 years (range: 27-68). In the study group, a

diagnosis of paraganglioma was verified in 22 patients. In one patient a second endocrine tumour was diagnosed: 1 patient had a thyroid paraganglioma and one patient had a carcinoid tumour. The mean tumour size was: 4.8
