How can I give Symantec Endpoint Protection 12.1.6168.6000 full access to install Win10 updates? Any ideas or suggestions? Thanks

A: Have you tried with Permissive Updates? From Microsoft Docs: When this property is enabled, Microsoft Windows Server updates that are available through the Windows Update mechanism (with the KB article number or ProductID) are installed automatically. For details on Permissive Updates see: Kaleido, a video software company for the world's top creative teams, is hiring at its London headquarters. Video production, virtual reality, user interface and product teams. Kaleido is seeking a Product Manager to help lead the development of new business and user facing products. You will be in a position to make decisions affecting the future of the product and will contribute to its success. We are looking for a team player who thrives in a fast-paced environment. The ideal candidate will have a good understanding of technical and business development, and can navigate the challenges and complexities of a fast moving startup. Similar to the role of a 'director', the Product Manager will be responsible for:

- * Strategizing the direction of the product and providing business and technical leadership.
- * Monitoring and analyzing user and business feedback to improve the product.
- * Execution of roadmap and high priority tasks to align the product and business goals.
- * Collaborate and advocate with a business focused engineering team to ensure correct implementation.
- * Work with the rest of the team to identify and prototype user flows, documenting them in the process
- * Ensure that product and tech are working together as an integrated whole and product features are tested with users.
- * Assist with building and presenting a product roadmap.
- * Communicate and liaise with business stakeholders to ensure the product is aligned with their objectives.
- * Manage and influence third party project leads to ensure the work completed aligns with our business and product strategy.
- * Research trends, capabilities and initiatives within the market to inform future plans.
- * Manage and report on project metrics including project productivity, goal achievement and team satisfaction.
- * Drive the effort to deliver on time and within budget.
- * Any additional responsibilities that arise over time.

We are a flexible team and you will have a good degree of flexibility within your role. We are open to a variety of different working styles, including working
