What's New in the?

Mobzync is a simple application that helps you compare, and synchronize content of two folders. What's more, it supports drag and drop of items. And it's quite fast to install. Even though its primary function is to verify files, it also helps you sync content of two folders that are not on the same computer. All in all, it's a very easy-to-use and efficient alternative to KDiff3 and a host of other tools.
