IP Video Broadcasting Live!

IP Video Broadcasting Live! is a powerful IP streaming program for live video broadcasting, real time video conversion, video files transcoding, video playlist generation, smart media servers, video editor. IP Video Broadcasting Live! is a server based live video streaming server. It can work on Windows 2000/XP/2003/2007/2008/7 as a file server and also can work on Linux as a web server. It takes RTP packets, adds a low latency transport (layer 4) transport (L4TP) and several enhancements (PIG), including muxing and demuxing of media, resizing, scalling, encryption, bandwidth shaping, and the ability to dynamically stream real time video files from other servers. Now, IP Video Broadcasting Live! version 13.9.2 is released and includes several improvements. Also, we also releases the free version called 4K/8K Video Broadcasting, which can be used for preview, previewing audio visual streaming, real time video conversion, video files transcoding, video playlist generation, smart media servers, and others. Followings are the major improvements of version 13.9.2 of IP Video Broadcasting Live! 1. Support Windows XP, Vista, Server 2003, 2008, 7, and Win 8 2. Support dynamic video streaming from other servers. You can configure the Wi-Fi IP camera directly with IP Video Broadcasting Live! and use it as a video streaming server (video file conversion is supported too) 3. New Server GUI: you can configure IP Video Broadcasting Live! through a new GUI 4. Support of Advanced Video Configuration Parameters. Included Video Codecs: AC3, AAC, MPEG-1, MPEG-2, MPEG-4, WMV, MOV, 3GP, H.264, H.263, VOB, BLACK, THX, MP3, WMA, AAC+, MP4, FLAC, CD Audio, AIFF, WAV, WMA Lossless, and other audio formats. 5. Support of MPEG-2 Transport Stream. 6. Support of HTTP Live Streaming. 7. Support of Real Time Custom Player: you can output stream from HTTP Live Streaming Media Server to PC directly. 8. Bug fixes. 9. Improved the error handling mechanism of IP Video Broadcasting Live!. 10. Improved the responsiveness of IP Video Broadcasting Live!. Download Video Broadcasting Server for Windows and Linux now. The free video 09e8f5149f

IP Video Broadcasting Live! [Win/Mac]
