I would seriously not recommend this book to anyone! . Sir Vivek Jain has been working in this field for so long that his books have become the standard. . The best psm b author I have ever read. . I always knew that "The Successful Psmb" would be my bible, and I was not mistaken. . I cannot recommend this book more. . It is written as if you have already succeeded. . Just use what he offers and you will be successful. . This is what every psmb should have in their library. . I consider this book to be the best in the world. . This is the best book anyone has ever written about psmb. . I started reading this book when I was 19. .
