
EBPPointDeVente2013Crack

ebppointdevente2013 | Great TV. The box says that it has bluetooth and comes with a remote control with voice control, but in my life I did not find it. It's nice to have voice control. The sound is good, but in my opinion, the range of the remote control is not very large. finaldevil2013 | Not even batteries are included. I had to buy separately. As a result, the price of the remote control is about 1000 rubles. The TV was purchased to replace an old TV that had been in operation for about 15 years.
