A matchless, stylish, crystal-clear game with state-of-the-art racing physics and a 3-D graphical environment. World Tour in the U.S. in the 1950s and 1960s! Played by the real contemporaries of the age! \* High-performance physics engine based on the revolutionary physics engine developed by the developers of "Need for Speed" "Auto Racer" and "Road & Track". \* An incredible 3-D graphics environment based on the powerful graphics engine of "City Drive" and "Defender of the Crown". \* Dynamic game camera, which enables you to directly control the game environment with your movements. \* Submersibles – underwater vehicles that allow you to dive even deeper than the ocean. They are used in the team of pilots which hunt down the scum in the depths of the ocean. \* Tractors – race-winning vehicles that roam roads and plow the fields of the streets of your cities. They are used to extract materials at the coast and bring them to the city where the city people live. \* The runway – the width of the main road that connects the cities. A square of asphalt on which a car race is performed. This is the famous wheel of asphalt, which is included in the game. \* The race track – a huge circuit in which car races are performed and the players strive to win the race. The track
