You don't have to be a professional to use Remo's Headhunter, the world's first portable film-to-camera adapter. A simple interface and intuitive functionality help you to focus on your movie instead of struggling with the hardware. From minor adjustments to major camera calibrations, it does it all! - Use the adjustable adapter hood to get perfect focus on your lens and wide-angle shots - Adjusting the lens angle & rotation: set your preferred shooting position to match the portrait format (or, in case you use 35 mm and 50 mm, set the adapter to match the vertical angle of your focal length) - Fine adjustment of the main lens: focus accuracy up to 0.5mm - Automatic soft focus for rectangular images (in aperture priority) - Touch the screen for convenient and intuitive operation - Remo's Headhunter has a 1 year warranty and a 100% free lifetime technical support A simple-to-use yet powerful tool for conversions, which enables you to convert a wide variety of file formats (including DCX, CBZ, TIF, TIFF, PDF, DjVu, CBR, and PCX) to DOC, DOCX, EPUB, FLA, HTML, and MHTML formats. If you wish to convert more than one file, choose the "Multiple Files" option. You can then access the subfolder where you have stored them. This operation is performed easily with the aid of the easy-to-use file browser. It also offers the facility to open the file you want to convert in Notepad or any other text editor of your choice. The interface of STDU Converter Standard allows you to quickly process your conversion requests. The layout is clean and the controls are intuitive. Since the program is lightweight, it doesn't affect the computer's performance. In this light edition, the app displays a watermark in the preview panel. This won't be the case if you purchase the full version of STDU Converter, which has been reviewed by our editors. STDU Converter Standard is available in three languages, French, English and German. It comes packed with the minimum features necessary for file conversions from the following file formats: DjVu (DJVU, DJV), TIFF (TIF, TIFF), PCX (PCX), DCX (DCX, DCX), CBZ (CBZ, CBZ), TGA (TGA, TGA), TIFF (
