- Use fewer than 40 MB. - Ability to change the bitrate without re-encoding the song. - List format is based on ID3v2.1 with some enhancements to make it look more like iTunes. - File type can be changed to music, wav or any other format supported by iPhone and iPod. - Support many album art sources. - Ability to convert song information to ID3v1.2 or iTunes 7. - Special thanks for loolil - - Zainy apps - - Contacts2Me - Hooking up to the Deck - Beatsnokez 2009 Check out my other videos on TeknoGear: Check out all the new Comhfh at Follow Us on Twitter: Like Us on Facebook: [4K] Musical Matrioshka Hard-Boiled Egg (in Russian) No, I haven't forgotten about our Russian video subscribers. :D They're getting a new one next week with a musical based round a hard boiled egg! What do you think of it? Thanks for watching! RUSSIAN MUSIC TO BE LISTEN TO DURING WORLD OLYMPICS Vladimir Putin has revealed the music he is most excited to listen to in preparation for the Sochi Winter Olympics. The choice falls for Russia's favourite songstress, Yulia Makhalina, who performed with other past and present Russian stars to help celebrate the Olympics. During a press conference he admitted that he did not know who will accompany her on the Olympic opening ceremony podium, but he promised to follow their career and said he was impressed with her success. Russian band Sofia Rotaru also impressed Putin and the audience, after her performance of Akhmatova's classic Requiem poem. Putin admitted that he admires her artistic spirit, and he asked her to sing at the Che... published: 11 Feb 2014

What's New in the?

Neat Music is the best tool that we have to organize our iPod music into great playlists. Neat Music can remove Duplicates from your music collection, rename tracks, group songs by Artist, Album and Genre etc. Also, if you set it as default music player, it can play the music on your iPod. Are you tired of the old, unreliable iTunes music organizer? AppleSoft's Neat Music is a powerful tool that will organize your music and make it easier to find in your library. When you started to play music on your iPod, you got confused by the huge amount of songs. Download Neat Music to easily organize your music into well-ordered playlists, and to play the music right away on your iPod. With the help of Neat Music, you will get rid of duplicates, improve the music library and make it easy for yourself to find songs faster. If you have a lot of music CDs, a professional CD burning program will help you to extract the music information (Song, Artist, Album, Genre, etc.) in order to save it to your iTunes library and create a custom playlist. What's New in This Release: -Fixed a crash that occurred while deleting a song in some rare situations. -Fixed a bug that caused some song information to be corrupted in some rare situations. -Fixed a bug that caused some song information to be generated with "-38 days" in some cases. -Added a supported option for WDTV Live and WDTV Live HD for iPod users. -Fixed a crash that occurred in some rare situations while unsyncing a playlist. -Fixed a bug that caused NSURLConnection initialization to fail in some rare situations. -Fixed a bug that caused iPod Nano storage (non-core and "remote" mode) to give an incorrect total number of songs. -Fixed a crash that occurred in some rare situations while updating song meta information. -Fixed a minor bug that caused a crash in some rare situations while updating song information. -Added a "Reset" button for the Preference Pane in the application menu. -Fixed a bug that occurred when selecting a song to be downloaded from a playlist. -Fixed a crash that occurred in some rare situations while searching for a song. -Fixed a bug that caused an NSURLConnection to freeze in some rare situations. -Removed a bug that caused a crash in some rare situations. -Fixed a small UI
