Rajiv Chopra Published By The Chopra Foundation 299 Pages Atri.Kamat.Com phpBB web site. Direct Download Link Free . Book Description The theme of the book is to help the individual in a better way of living. More than that, it's a book that empowers one to be fully energetic and active in life. It's a book that gives hope to the individuals who feel that they are not able to fulfill their aspirations. It's a book that will inspire the individual who's facing challenges in his or her life. It's a book which will help the individuals who are facing difficulty while making decisions; it's a book that will help the weak. It's a book that will inspire all. In this book, we'll discuss the following subject. . Organisational Defining Designing for Happiness Developing Specific Needs Reflective practice Dreaming Finance Education & Training The Personality Questionnaire Influence of the Vascular System on the Nervous System Designing for Happiness For the first time in the world, the concepts of happiness and wellbeing have been attempted to be defined through the physical system. Designing for Happiness suggests that there are components of the physical system that act as a driver for happiness. It states that the happiness of a person depends on the state of the heart, lung, and gut as well as the brain. Some of the aspects that contributed to the authors' happiness in their lives are discussed below. The Authors' Personal Journey The authors' personal journey was conducted before they came up with the concept of happiness. The whole journey, from the time the mental illness was identified to the time the authors had their first treatment plan, had taken 12 years. The authors' journey has been an investigation into the physical structure of the body that can be used to define the mental wellness. The first part of the journey began with the observation of the spiritual components in the life of the authors. The observation of the spiritual wellness was followed by the continuous observation of the physical system. Some of the areas that were observed were The authors' clinical observations of the mind and physical system Observation of the effect of the medication on the mind and physical system Study of literature to explore
